

This craft is a great addition to your life cycles science lesson! Included in this craft is the life cycle of a plant and the life cycle of a chicken. I didn't include an answer page only because you may not do the chicken life cycle like I do, so I will leave it up to you, what came first the chicken or the egg. Ha!

Directions: Cut out the pictures and glue them in the right order on the life cycle charts.

I hope you enjoy this craft as much as my son and I did 😊
